PU STONE PANEL HOT PRODUCT CATALOG

Superior Performance

PU is polyurethane high polymer material, temperature resistance at -20°C $\sim 120^{\circ}\text{C}$, coupled with the surface of the high-strength coatings, acid-resistant, sunscreen, more durable. In the application location, mainly used for wall decoration, can be applied to the building interior, wall surface. PU wall panels are lightweight, easy to cut, not easy to crack, inexpensive, mildew-proof and environmentally friendly, easy to construct, which can greatly shorten the construction cycle, thus saving costs. In terms of process, the raw material will be pressed through the mold, and at the same time, the mold is used for coloring.
